EDUCATION

Bachelor of Engineering, Electronics and Communication

STJ Institute of Technology, Ranebennur

Dec 2021 – May 2025

CGPA - 8.80

INTERNSHIPS

Junior Developer Intern | Thincnext

Feb 2025 – May 2025

- Designed and developed the Kannada Film Chamber of Commerce website focusing on the landing page and key sections, while also contributing to the Sree LPG E-commerce website by developing the About Us, Services, and Contact pages using Shopify.

Embedded IOT with Arduino | Abeyaantrix Softlab(opc)Pvt Ltd

Oct 2023 – Nov 2023

- Measured environmental parameter using sensors and open sources microcontroller platform for building electronics project for data exchange control.
- Reduced energy consumption by 20% though optimized sensor reading.

Embedded System Using IoT | STJIT

Sep 2022 – Oct-2022

- Proficient in developing and deploying embedded systems for IOT application.
- Learning of VLSI Tools, Latex Software, Matlab, Embedded systems and IOT has equipped me with strong technical skills and optimized performance & reduce costs.

PROJECTS

PG-Management System | Java Full Stack

- Developed a full-stack PG Management System using Java Spring Boot, React.js, and MySQL with JWT-based authentication, implementing secure role-based access control, complete CRUD operations, and a responsive UI for efficient property and tenant management.

E-commerce Shopping Website | ReactJS, Tailwind CSS

- Developed a fully routed e-commerce website using ReactJS and Dummy JSON API, featuring product listings, category filtering, cart, login UI, and checkout flow.

Interior Web Design & Development | JavaScript, HTML, Tailwind CSS

- Developed a fully responsive interior design website using HTML, JavaScript, Tailwind CSS, and AOS, delivering smooth animations and an enhanced user experience.

Object Detection Using ESP32-CAM & Edge Impules | Ardunio Uno & Edge Impulse

- Built a real-time object detection system using ESP32-CAM and Edge Impulse with a YOLO-based model, optimized for low-power edge AI deployment and minimal latency.

TECHNICAL SKILLS

- Languages:** C, Java, Python, SQL
- Web Technologies:** Spring Boot, ReactJS, JavaScript, HTML5, CSS, Tailwind CSS, Bootstrap
- Database:** MySQL

LANGUAGES

- **English:** Fluent
- **Kannada:** Fluent
- **Hindi:** Native
- **Marathi:** Native
